## HUNTING AREA

# Hunting Districts - Pakistan

Many different districts are used in the hunts for the different game species available in Pakistan. This is because the species available for hunting are spread out over much of the country – often you can only hunt one species in each district, and as the licenses are relatively few in number, you may only hunt in the district that has been allocated. Generally, this system ensures that the authorities only issue licenses for areas where continuous monitoring has shown the population of the game species in question is strong to sustain limited hunting. It also ensures that the district will contain the game species you are seeking.

Some of the hunting districts are amongst the most inaccessible areas on earth, so hunters must expect a long and often strenuous time on the last leg of the journey between the international airport and the hunting district – all part of the adventure !

If you are interested in a specific arrangement , Zoon Safari can naturally give much more detailed information about the actual hunting district.

### Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krössteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 counties and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with them new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of small and medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised. Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails - and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
